PROTECTION & PERFORMANCE

AQUATECH™
A PRODUCT OF HI-VAC CORPORATION

GUARDS AGAINST...

QUIETEST COMBINATION SEWER CLEANER IN THE INDUSTRY

- Rear-mounted hose reel design protects operators from noisy and hot chassis engines
- Noise protection is a primary OSHA regulation for operator safety
- Operating noise level typically less than 81 dBA

FULL SIZED, INSULATED ENCLOSURE KEEPS ALL TOOLS SAFE AND SECURE

- Ample storage for tools, accessories, high-pressure hand guns & nozzles and lateral hose reels

COLD WEATHER RESISTANT

- Vacuum and water systems protected by insulated enclosure
- Virtually eliminates water pump freezing

EXCESSIVE NOISE AND WEATHER CONDITIONS

MOST POWERFUL VACUUM PERFORMANCE

- **5800 CFM and 27" Vacuum**

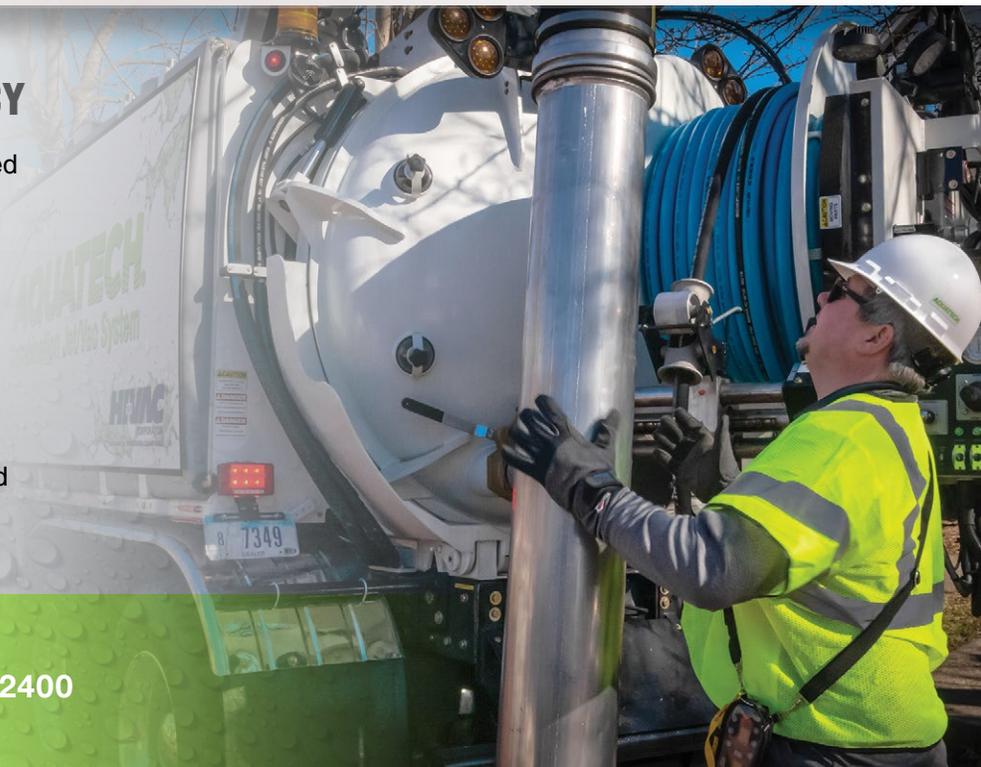

highest vacuum performance of any sewer cleaner on the market

Also available: vacuum system with 5000 CFM and 18" Hg and 4000 CFM and 27" Hg

- 27" vacuum cleans lift stations faster, vacuums deeper, hydro excavates more efficiently, and keeps up with heavy flow large diameter sewers
- Efficient, powerful and reliable horizontal transfer case drive system

UNPARALLELED EFFICIENCY

- Top loading boom provides unlimited 360° operation
- Rear-mounted hose reel position results in increased versatility
- Rear-mounted hose reel offers unlimited work zones and fast, easy set-up
- Includes an ASME Certified 10-yard debris body and an 1,100-gallon water tank capacity
